Dear Neighbor—

For the last few weeks, I've been out in our neighborhoods, walking door-to-door and talking to as many people as possible about the critical issues facing Nevadans today. I hope we have the chance to talk, and as always, please feel free to contact me by phone at 702-767-1315 or by email at marilyn@marilynkirkpatrick.com. I look forward to speaking with you.

I've heard from many constituents about the issues that concern them most. What I am hearing most frequently are concerns about jobs and our economy, education and the need to make government work more efficiently. I have heard more specific concerns that range from graffiti, foreclosure, neighborhood blight, needing help for a senior citizen, and more.

I know that many people are looking for a place where they can get questions answered. Below, you'll find the contact information for several organizations and agencies that offer assistance on a wide range of problems. Many of the services listed below have very specific requirements to qualify for assistance. If an issue that concerns you is not listed below or if you have any difficulties reaching these organizations, please contact me and I would be happy to help follow up.

I'm often asked about the recent extension of unemployment benefits and how it will affect individuals who have exhausted a claim. Below, you'll find the answers to your most frequently asked questions about benefits.

Information for People Seeking an Extension of Unemployment Benefits

In recent weeks, the discussion about extending unemployment benefits has been in the news. Several people have contacted me about what they need to do if they have exhausted their unemployment benefits. Here are the answers to some of your most frequently asked questions.

If my benefits have expired, do I continue to file my unemployment benefit claim?

Yes, you should continue to file. If you have exhausted a claim, you should apply for the next tier of benefits. You don't need to wait for a letter to re-apply. When you have received the letter of eligibility, this signals that weekly claims can be made. The Department of Employment, Training and Rehabilitation (DETR) will update the system for any weeks that you were unable to file for benefits using the weekly certification system-- after you have applied for an extension.

I've heard that I will receive \$25 less in benefits, is that true?

If your unemployment claim was established before May 29, 2010, then you will continue to receive the \$25 weekly payment that is funded by the American Recovery and Reinvestment Act. This payment continues until December 7, 2010. Any new claim, filed after May 30, 2010, will not receive the \$25 weekly payment because the funding was not renewed with this extension of unemployment benefits.

Should I contact the DETR office to reapply?

Yes. Call centers are open Monday- Friday from 8am-5pm with new calls accepted until 4:15pm. The call centers will also be open on Saturday, August 14 and 21 from 8am- 2:30pm. In Southern Nevada, call 702-486-0350. You can also file at claim at www.expressclaim.org.

If I was out of work for 99 weeks, will I receive additional benefits?

No. The maximum number of benefit weeks remains 99 weeks. The extension only allows individuals who would have been eligible to apply for the extended benefits program on June 2-November 30, to submit those claims.

If my first 26 weeks of benefits recently ended, what should I do?

File a claim for your first extension by calling 702-486-0350 or online at www.expressclaim.org.

DETR hopes to have the 40,000 individuals who were impacted by the recent extension to have their benefits caught up by the third week of August.

Sincerely,

Marilyn Kirkpatrick
