Did you know...?

This week is Nevada Reading Week (2/25-2/29).

What's Happening in District 1

Several constituents have called me with concerns about a three-story hotel that is being proposed for Lone Mountain and Rancho. If you have concerns or questions, please contact Councilman Steve Ross as soon as possible

During the Holidays, Assembly District 1 residents and Arbor View students were instrumental in reaching our goal to help homeless teenagers.

Thank you to everyone who contributed.

A big thank you to Klassy Kids Academy and Dawn Hayden for all of their hard work.

Congratulations!

Cheyenne High School's boys' basketball team had a fabulous season and played in the state championship game.

Cheyenne High cheerleaders took 2nd place in Stunt and performed well all-around.

The dance team took 2nd place in jazz.

Parents should be really proud of their students' efforts and performance.

I am very proud of the students at Cheyenne High School for their recent achievements.

Update

The PERS and PEB system case was heard in the Nevada Supreme Court. We are awaiting a decision.

Dear Friend,

I want to take this opportunity to update you about what is happening in Assembly District 1.

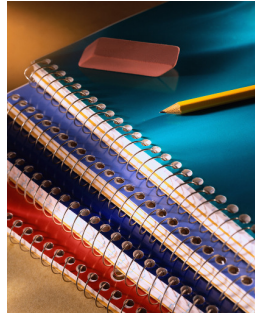

As I look to the next legislative session, I will be sending out my issues survey again. This time, by popular demand, you will have the option of returning it or filling it out on my website. As I have always said your voice matters.

First and foremost, we had record turnout on January 19th for both the Democratic and Republican caucuses. I would like to take the time to thank everyone one who participated.

I will continue to send out regular email updates. If you would like to have your name removed so you do not receive my email newsletters in the future, please reply to this email.

Sincerely,

Marilyn

Cheyenne High School Wants Your Input

Neighbors in the area have supported the use of smaller classrooms at Cheyenne High School and they are asking for your input. Please read the following information from the principal and take a few minutes to fill out the survey. Your opinion can really make a difference.

From Dr. Geihs--

Our school is seeking federal funding to implement smaller learning communities. A small learning community is defined as:

an environment in which a group of teachers and other adults within the school knows the needs, interests, and goals of each student well, closely monitors each student's progress, and provides the academic and other support each student needs to succeed.

Please help us with our planning by completing this short (six question) online survey:

PLEASE respond to this very fast survey below regarding the Smaller Learning Communities (SLC) Grant that we have been trying to get for 3 years. If we get it, Cheyenne will receive over a million dollars for the next few years. And, what SLC wants is what the legislature has already mandated for the 2008-09 school year - a separate ninth grade academy. So, this will only help us with what is already required by law. We would be negligent if we didn't try for this great opportunity.

Thanks for your attention. It will only take you 3 minutes to complete the survey.
